Personal and Impersonal.

—There was a large attendance on the golf grounds, on the afternoon of the 4th. Supper and a most excellent one—were served to 151 members.

—It is decidedly unfortunate that a man's obituary notice always comes too late to get him a job.

—The Cottage and Cliff streets Improvement Association, of Honesdale, will hold a shore dinner and dance at Bunnell's Lake, on Friday evening, July 17th. First table at 8 o'clock. Everybody welcome.

—Born, to Mr. and Mrs. Charles T. Bentley, of North Main St., on Wednesday, July 8th, 1908, a ten pound daughter.

—The East Honesdale Improvement Society noted \$40 by their recent dance and supper.

—The young people had a dance in the Golf Club House, last Friday evening, some thirty participating in the enjoyment.

—The alarming death rate by consumption in the state region of Northampton county is attracting attention. At least ninety per cent. of the recent deaths in that section have been caused by tuberculosis. This fact is all the more surprising when it is considered that the air and water are exceptionally pure in those mountain towns.

—From reports so far received from throughout the State by the department of Agriculture, unusually fine crops of hay, wheat, corn and apples are expected to be gathered in Pennsylvania this year.

—The Pennsylvania Educational Association met at State College this year, the three days' sessions closing to-day.

—The attendance has been unusually large, and a fine program was carried out.

—Many fraternal beneficial organizations will be surprised to learn that they are exempt from paying the four mills State tax on investments, a law having been passed three years ago exempting them from such payment.

—The Means of the State of Wash. have played a big on the liquor business as a means of livelihood for members of the order. The Grand Lodge, at a recent meeting, made an irrevocable ruling prohibiting traffic in whisky by Masons within its jurisdiction. Hereafter to engage in the liquor traffic is to commit a Masonic offense, punishable by expulsion, from which there shall be no appeal.

—Letters unopened from in the Honesdale post office.

—Mr. John Adams, Geo. Conners, Miss L. Holbrook, Lawson M. T. Co., Grant A. Miller, E. B. Mosher, Mrs. Lewis M. Holbrook.

—It will probably be an item of news to most readers that postmasters are not compelled to make change when you make purchases at Uncle Sam's office. This is a queer rule that not one in a thousand persons know. Buyers of stamps or any purchases at a post office must furnish their own change; that is, the postmaster could insist on the buyer furnishing his own change if he were fit to do so, but usually the postmaster is glad enough to get rid of his "chicken feed," and he is always willing and ready to accommodate the public by making all the change it takes for. If a man wishes to buy 25 cents' worth of stamps and has but a silver dollar, he would be compelled to buy a dollar's worth of stamps or go and get his silver dollar changed or do without the stamps if the postmaster was stubborn and refused to make change for him. This is the law and a queer one, so many think. And postmasters are not compelled to take more than 25 cents at one time if they do not want them.

—At the five o'clock Bright Hour Service, next Sunday afternoon, Dr. Wm. H. Swift will speak upon the topic "What is this Community's Greatest Problem?"

—Officer N. B. Spencer picked up a hobo on Monday morning last and taking him before Justice of the Peace Robert A. Smith, preferred a charge of drinking and begging, on the strength of which the Wary Willie was locked up in jail.

—Callison, receives \$2,991.66, and Tustin, \$1,592.24 in the distribution of the Sullivan county, (N. Y.) highway money this year.

—The United States Department of Agriculture has issued a pamphlet of warning about the White Pine Blight which has appeared in New England, and some of the Middle States. It says that in New York the eastern part of the State is affected.

—In Pennsylvania the law gives the pedestrian the right of way over the automobile and if there is anything left of the pedestrian after the chauffeur gets through with him, he may as well get it.

—The Adams Express Co. recently had a sale of unclaimed packages at its Allentown office. One individual made a lucky investment for 35 cents, when a suit case was knocked down to him. Upon breaking it open he was most agreeably surprised to find in it, wrapped up in a piece of newspaper, \$125 in good currency of the realm, besides a full set of burglar's tools. He has not yet announced what he will do with the latter.

—The Frank A. Robbins, so called, circus which exhibited here on Saturday was an unmitigated fake and fraud from the first poster placed on the bill boards to the pulling of the last tent stake. Nothing, substantially, that was promised in the advance announcements was done; and very little that was done at all was well done. The showmen came here with a fake story of a wreck which had destroyed much of their specialty apparatus; but later explained that the management had sent to headquarters about half of the show on account of bad business. Yet notwithstanding this confession of their crippled or inefficient condition, they had the nerve to charge the hundreds of people who had been allured by their lying statements to tramp through the mile of dust to Freeby's flat, just double the admission fee demanded in all other towns. Instead of ten and twenty-five cents for tickets at elsewhere, here they were twenty-five and fifty; instead of ten cents for reserved seats, the charge was twenty-five, and the commonest palm leaf fans were sold for ten cents. There was no apology even, for an elephant, and the few moth-eaten beasts that were put on exhibition were so forlorn in appearance as to excite pity or devotion rather than interest. The disgusting antics of four or five degraded monkeys were better adapted for exhibition in a tenebrous jungle than a civilized community, and their near relatives the three alleged clowns, instead of provoking laughter, drove most of their audience into a settled melancholia. The three cowboys, headed by "Nebraska Bill," were so ludicrously bad as to be almost good. It was certainly amusing to witness Bill's frantic attempts to jump through the loop of his lariat, resulting in a whack across the face at every trial. As for leaving the running horses, it is doubtful if he could have roped one if it were walking; and when it came to picking up the scattered gear from the ground, while the bronchos were in motion, the rule seemed to be to miss twelve out of every dozen. In fact, if there ever was a rank counterfeiter till it was "Nebraska Bill." Such of the side-shows were not made up of toothless snakes, fakirs and gamblers, were composed of gamblers, fakirs and toothless snakes; but in lieu of the usual calumny and lemon peel generally served as lemonade at only five cents a glass, they could get river water and change for the same price. The only redeeming feature of the whole fake was the menace of an old time trial, who handled her handsome horse and white doves very acceptably, but who looked so decidedly out of place as to suggest the old story of "Good Dog Tray Caught in Bad Company." The weather under the tents was simply stifling, and it was small wonder that when finally released from the very fumes, the entire crowd bunched the criticism of the show into the one expressive word, "Stung!"

—The United States in 1907 produced 45,450,042 short tons of coal valued at \$1,431,549. Great Britain's production of coal in 1908 was 299,969,669 short tons, and Great Britain is the second coal producing country in the world. The coal production of the United States in 1907 exceeded by 180,480,373 short tons, or more than 60 per cent, the production of the British Isles. It was more than double that of Germany, and was equal to 49 per cent. of the total coal production of the world.

—Hon. Charles B. Staples, President Judge of the Pike-Munroe district, hearing recently that a strong effort was being made to secure a pardon for four Luzerne county men, who were tried and convicted for ballot box stuffing, and sentenced by him to a term of imprisonment, made a strong plea against their release, claiming that the criminals should serve out their sentences. The result was that the Board of Pardons refused to act on the case. Right.

—Charles Markoy, the down town plumber, has sold his property, comprising an acre of ground, house and barn on Union Hill, to John Bodemer, of West Street. Possession to be given Oct. 15th. Consideration, private.

—A Norwich, N. Y., butcher, having his delivery wagon destroyed in a collision with an auto, purchased a horse at a low rate, and came back to serve his customers from it. Wonderful to relate, he lost his trade at a most alarming rate to him; but at last the truth dawned upon his chief rival, and he abandoned the vehicle which had been used for transporting bodies to cemeteries, and is now looking for a new and improved butcher's wagon.

—Pennsylvania produces over \$15,000,000 worth of vegetables annually. Only one other State makes a better showing in the value of garden products. Philadelphia county enjoys the reputation of being the second county in the United States in the average value of garden products per acre, and Allegheny county ranks fifth.

—As the season of thunderstorms is on, attention is called to some popular errors as to the danger from lightning. A widespread belief is that during a thunderstorm safety may be found under a beech tree, and that the danger from lightning is 15 times as great under a resinous tree as under a beech tree. Careful observation shows that this view is entirely without foundation. The beech is not avoided by lightning which selects one species as readily as another, but the tall trees in the neighborhood appear to be the ones liable to be struck. The effects of lightning are also commonly misunderstood. The coils of a tree are not captured or torn by the force of steam, as is often stated, but they collapse, or shrink up, without tearing. The roots seem to escape damage.

—Orders have been issued from Washington for repainting of all the light boxes throughout the country a bright red. First grey was tried, then green, and now the department decides that these colors are not conspicuous enough to attract attention of those looking for them on the street.

—Eight young men were ordained to the priesthood in St. Peter's Cathedral, Scranton, by Rt. Rev. Bishop M. J. H. in the presence of a large number of relatives and friends, on Friday morning last. A large number of priests were present in the sanctuary during the celebration of the mass, among them being Rev. P. C. Winters, of Hawley, and Rev. Thomas Jordan, of Honesdale. At the conclusion of the mass, the newly ordained priests gave their blessing to their friends and relatives, who came forward to the altar rail.

—Frank G. Carpenter, a staff correspondent of the Philadelphia Press, is writing a most interesting series of articles descriptive of travels in Africa. In that journal of July 5th, writing from Zanzibar, he says that 65,000 elephants were killed in Africa last year, and more than a million and a half pounds of ivory were taken from them and shipped off to Europe. Of this total, 300,000 came from Zanzibar, another third was from Portuguese East and West Africa, and a large part of the balance was from the valley of the Congo.

—While paying a visit to her friend, Mrs. Martin, on Union Hill on Saturday last, Miss Tillie Schoonover, aged nineteen, employed in the family of Jacob Katz, Church street, was protected by a sudden attack of acute appendicitis. Dr. McConville was called, and under his advice the girl was taken to the Port Jervis Hospital for treatment on Sunday, after remaining at her friend's house over night. Dr. McConville accompanied Mrs. Martin and her charge as far as Lackawanna.

—All flags now made for the use of the government will contain 46 stars to conform to the present number of States, the additional star, added July 4th, being for Oklahoma.

—One of the largest dividends ever declared by a National Bank in the United States was declared a few days ago by the First National Bank of New York. Its capital is \$10,000,000, and it declared a 100 per cent. dividend. This dividend of \$10,000,000 was taken from its surplus, and will be used to pay for the capital of the First Security Company, which the stockholders of the bank have established. This is the second very large special dividend declared by the First National Bank within the last ten years. About eight years ago the capital stock of the bank was increased from \$50,000,000 to \$100,000,000, and in connection with this increase a special cash dividend of 1,000 per cent., said to be the largest ever declared by a bank, at least in this country, was paid to stockholders.

—Three persons united with the Presbyterian church last Sunday morning, and one infant was baptized.

—The Equitable Life Assurance Society has plans drawn for a 62-story skyscraper in New York City, to cost \$10,000,000. It will be 300 feet from the curb to the top of the tower, upon which will be a flag pole 150 feet in length. The ball on the flagpole will be 74 feet higher than the 365 foot steel Eiffel tower.

—The anniversary of the Wayne County Bible Society will be held in the E. K. church, Honesdale, on Wednesday evening, July 15th. It will be a unique meeting of the various Honesdale churches.

—In the estate of Charles W. McKinnon, of South Canaan, in bankruptcy, a dividend of twenty-nine per cent. has been declared, payable after July 20th, unless exceptions are filed on or before that date.

—The following comprise the advance detail of Co. E, who will leave for the Gettysburg encampment, next Monday afternoon: Sergeant Ambrose Kellam, Corporal Ernest Hartman, Artillery Class, Private Richard Reed, Frank Tate, Samuel Doney, Thomas McKen, Wm. Flynn, George Scheldt, Leo Tarkett, Cooke, Frank Lutter and Michael Stahl.

—A benefit musical will be given in Lynn Hall, this Thursday evening, for a most worthy object. Tickets, 25 cents.

—There is at present \$582.95 in the borough treasury.

—The new Spring street sewer is to be connected with the large one already in East street, at the corner of 14th.

—The thunder storm which visited this section on Tuesday afternoon last, was quite violent in Cherry Ridge and Canaan townships. James Moylan, of Fernoy, with his son and daughter, was at work in the hayfield when the rain began to fall about 2 o'clock, and he and his family went to the barn. The children put in the horses, while he went to the house and seated himself on the porch. Shortly afterward a blinding flash of lightning accompanied by a terrific puff of thunder fairly lifted him from his seat. The boy and girl had just reached the house, when Mrs. Moylan rushed out and told them that the barn had been struck and was on fire. James and the children hurried to the rescue of the barn, and a valuable calf which was in the barn, building and, largely through the efforts of Miss Alice, they were all saved; but the barn and large shed adjoining with three tons of hay, half a ton of oat straw, a lot of oats, top buggy, buckboard, plows and other farming machinery and implements were entirely consumed. The barn was insured for \$10,000 by the Farmers' Mutual Insurance Company, of which Mr. Moylan is a local agent.

—The Honesdale National Bank declared its regular dividend of five per cent., and a special one of two and a half per cent., on Monday.

—The Wayne County Savings Bank gave its stockholders, on Monday, a dividend of ten per cent. from its earnings for the past six months.

The marriage of James Shepard Wardell, of Hancock, N. Y., and Miss Laura E. Hall occurred Tuesday evening, June 30, 1908, at the home of the bride's parents, Mr. and Mrs. Daniel C. Hall, at South Branch, near Equinunk. Rev. John T. Gardner, the bride's pastor, officiating. About one hundred guests were present. Miss Nina Hall, a sister of the bride, and Charles Wardell, a brother of the groom, were bridesmaid and groomsmen. Little Bernice Hall acted as flower girl. The wedding gifts were numerous and beautiful, consisting of cut glass, china, silverware and furniture. Among those present besides Equinunk friends were: Mrs. Horace Monner and son, Robert, Mr. and Mrs. W. H. Wardell, and Miss Jeanette Babcock, of Peckville; Frank Wardell, of Beach Lake, Mr. and Mrs. D. H. Lester, of Monticello, Mr. and Mrs. Chauncey Fuller, of Port Jervis, and Mr. and Mrs. Alva Dix, of Winwood. Following a few days' stay at the home of the bride's parents, Mr. and Mrs. Wardell will be at home to their friends in Honesdale.

Use YOUR LEISURE TIME—If you have an hour to spend each day don't let it pass for time is valuable. It will pay you to write to the Circulation Department of The Philadelphia Press, mentioning this paper, and they will send you an interesting book of advice, telling how to make use of your spare moments and how to make a considerable sum of money for a little work you can do very easily. A postal card will bring this information to you. "Don't let it pass." Write at once, it will mean dollars to you. Address: Circulation Department, The Press, 12th and Chestnut streets, Philadelphia.

The conviction of an automobile owner in Seattle of manslaughter for running over a child is an example worthy of imitation. The actual sending to jail of a few persons responsible for the injury or death of pedestrians would do more to make speed maniacs careful than all the laws limiting speed that could be passed.

According to the Seattle Post-Intelligence all records of the quantity of lumber sawed from one tree, from the acre and from ten acres, have been shattered by the cut made from a ten-acre tract of land on the north shore of Puget Sound. The log scale shows that 5,100,760 feet were obtained from 561 trees in a ten-acre tract, or an average of 510,076 feet to the acre. The record cut of the ten yielded just 38,048 feet, as compared with a normal average of 25,000 feet to the acre. On this particular acre a single fir tree yielded 21,148 feet, or less than 3,000 feet under the average yield of an entire acre of ground.
